California Professional Firefighters (CPF) today endorsed Dave Jones for California Insurance Commissioner.

CPF President Lou Paulson stated, "Dave Jones has always been a resolute friend of California's firefighters and paramedics. He has fought to protect local public safety budgets from draconian state budget cuts. As Insurance Commissioner, Dave Jones will fight to stop insurance companies from failing to live up to their obligations to policyholders after a wildfire or other natural disaster. California's first responders are proud to support Dave Jones."

With a membership of over 30,000 firefighters and paramedics from over 180 local affiliates, California Professional Firefighters is the state's largest organization dedicated to serving the interests of firefighters.

Dave Jones responded to the news, "Firefighters put their lives on the line, every day, to protect our lives and property. They deserve our support and appreciation. I am honored to have the endorsement of CPF and look forward to working with them to make our state and families safer."
